

Seating Adaptations

Adaptations without limits

We are able to supply and fit a range of seating adaptations which allow the driver and/or passenger to access/exit the car more easily. Please see below for a selection of products available, however this list is not exhaustive.

For more information and advice on seating adaptations, please call us on 01377 241700 or email sales@alfredbekker.com

Manual Rotating Car Seat

- Meets hackney licensing requirements for many Councils
- Vehicle specific swivel bases
- Can be removed at a later date and original seat can be re-fitted
- Features manual reclining and sliding actions, just like a standard car seat
- Stylish black cloth finish with the shaping of an ordinary car seat

Turnout Manual/Electric Rotating Car Seat

- Meets hackney licensing requirements for many Councils
- Vehicle specific fitting kits
- Can be removed at a later date and original seat can be re-fitted
- Features manual reclining and sliding actions, just like a standard car seat
- Choice of seat styles

Seating Adaptations

Adaptations without limits

Turny Evo (fully electric) programmable rotating car seat, with lowering action

- Allows the user to get seated outside the vehicle, before being comfortably lifted to a safe position inside
- Makes transferring from/to a wheelchair easier
- Programmable movement path - can be tailored to each user/vehicle combination
- Vehicle specific fitting kits
- Built in footrest
- Choice of seat styles
- Electric slide and manual recline once inside the vehicle

Wheelchair Topper Box

- Combined with a swivel seat or transfer plate, the topper box allows the wheelchair user to transfer from/to and stow/deploy their chair completely independently
- Keeps the car's interior clean and frees up space
- Weatherproof
- Designed to look like a standard rooftop box
- Takes manual folding wheelchairs up to 20kg
- Mounted using standard roofbars
